

Section 2 Hazard Identification

Section 1. Identification	tion	•
Product Identifier	Chem-Cool 50 %	Version: 9
		Effective Date: 9 December 2020
Other Means Of	None	
Identification		
Initial Supplier	Chemfax Products Ltd.	
Identifier	11444 – 42 Street SE	
	Calgary, AB T2C 5C4	
	Tel: 403-287-2055	
Recommended Use	Inhibited heat transfer fluid.	
And Restrictions On	No restrictions	
Use		
Product Family	Blend	
Emergency Phone	1-855-887-2055 Monday - Friday 8:00am	n - 4:30pm MST

Section 2. Hazaru Identifica			
Hazard Classification			
	Acute Toxicity (Oral) - Category 4		
Cianal Ward	Specific Target Organ Toxicity (repeated exposure) - Category 2		
Signal Word	Warning		
Hazard Statement	Harmful if swallowed.		
	May cause damage to liver and kidneys through prolonged or		
	repeated oral exposure.		
Precautionary Prevention	Wash hands thoroughly after handling.		
Statement	Do not eat, drink or smoke when using this product.		
	Do not breathe fumes, mist, vapours or spray.		
Precautionary Response	IF SWALLOWED: Call a doctor if you feel unwell. Rinse mouth.		
Statement	Get medical attention if you feel unwell.		
Precautionary Storage	No storage statement.		
Statement	-		
Precautionary Disposal	Dispose of contents / container in accordance with local regulations.		
Statement			
Other Hazards	None		

Section 3. Composition / Information on Ingredients			
Chemical Name	Common Name or Synonyms	CAS NO. and Other Unique Identifiers	% by weight
Ethylene Glycol	Glycol	107-21-1	50
Balance of ingredients are considered non-hazardous and constitute a proprietary blend			

Section 4. First-Aid Meas	ures		
Eye Contact	Flush eyes with water for 15 minutes. Seek medical attention.		
Skin Contact	Flush area with water. If irritation persists seek medical attention. Launder clothing before reuse.		
Inhalation	Remove victim to fresh air. If there is difficulty breathing, seek immediate medical attention.		
Ingestion	Give two glasses of water. Do not induce vomiting. Lay victim on left side to prevent aspiration of any vomit. Seek immediate medical attention.		
Most Important	Breathing difficulties.		
Symptoms and Effects Both Acute and Delayed			
Immediate Medical	Effects of ethylene glycol poisoning appear in three stages. Initial		
Attention and Special	stages in the first $6 - 12$ hours is characterised by central nervous		
Treatment	system effects (transient exhilaration, nausea, vomiting and potentially coma, convulsions and death). The second stage lasts from 12 – 36 hours after exposure and is initiated by the onset of coma. It is characterised by tachypnea (laboured respiration), tachycardia (rapid heartbeat), hypotension (low blood pressure), cyanosis (blue discolouration of skin, nail beds, and mucous membranes due to lack of oxygen) and in severe cases pulmonary oedema, bronchopneumonia, cardiac enlargement and congestive heart failure. The final stage occurs at 24 – 72 hours post exposure and is characterised by renal failure, from mild symptoms to complete anuria (failure of the kidneys to produce urine) with acute tubular necrosis that can lead to death. Hyperoxaluria (presence of excess oxalic acid or oxalates in the urine) is found in most cases. Ethylene glycol poisoning will always cause metabolic acidosis (blood pH becomes lower than 7.5). Treatment is required within the first three hours of exposure. High proof whisky can be administered prior to hospitalization if treatment is delayed. Haemodialysis is the most effective means of removing ethylene glycol and its metabolites form the body.		

Section 5. Fire-Fighting Measures			
Suitable and Unsuitable	Carbon dioxide, dry chemical, and water spray.		
Extinguishing Media			
Hazardous	Alcohols, aldehydes, carbon dioxide and carbon monoxide, ethers,		
Combustion Products	toxic fumes.		
Specific Hazards Arising	Thermal decomposition can lead to release of irritating gases and		
From the Product	vapours. Keep product and empty container away from heat and		
	sources of ignition.		
Special Protective	Fire-fighters should wear self-contained breathing apparatus and full		
Equipment and	protective clothing. Use water spray to cool containers and structures		
Precautions For Fire-	exposed to fire.		
Fighters			

Section 6. Accidental Release Measures		
Personal Precautions,	Gloves (neoprene), safety glasses, coveralls.	
Protective Equipment and	Ensure adequate ventilation. Do not breathe vapours or spray mist.	
Emergency Procedures	Avoid contact with skin, eyes and clothing.	
Environmental	Prevent entry of spilled materials into sewers or watercourses. Dike if	
Precautions	required.	
Methods and Materials for	Wear full protective equipment. Dike area and collect spilled material	
Containment and Clean-	by pumping into holding vessel or by soaking up with absorbent	
Up	material, then transporting it into an appropriate container for disposal.	
	Area will be slippery with residues, wash area with water.	

Section 7. Handling and Storage			
Precautions For Safe	Handle with care. Do not eat or drink near this product, and employ		
Handling	good housekeeping practices. Empty containers will contain residues, these should not be cut or welded - the vapours mixed with air can form explosive mixtures.		
Conditions For Safe Storage	Store in a cool dry place. Keep containers closed at all times.		

Section 8. Exposure Controls / Personal Protection				
Control Parameters	TWA: 8 Hr	STEL: 15 min	Ceiling	IDLH *
Ethylene Glycol			50 ppm (NI	OSH)
			50 ppm (CA	D AB OEL)
* Immediately Dangerous to Life and Health				

	V	
Exposure Controls	Local exhaust ventilation	
Appropriate Engineering	Ensure adequate ventilation, especially in confined areas. Ensure that	
Controls	eyewash stations and safety showers are close to the workstation	
	location.	
Individual Protective		
Measures		
Eye / Face Protection	Safety glasses.	
Skin Protection	Wear gloves (neoprene), coveralls - chemical resistant	
Respiratory Protection	If exposure limits are exceeded, an air purifying respirator, fitted with	
	cartridges for organic vapours must be worn.	

Section 9. Physical and Chemical Properties		
Appearance	Clear, pink liquid	
Odour	Mild odour	
Odour Threshold	0.08 – 25 ppm	
pH	8.0	
Flash Point	> 100 °C	
Boiling Point and Boiling Range	No data	
Melting Point and Freezing Point	No data	
Evaporation Rate	No data	
Flammability (solid, gas)	Not applicable	
Upper and Lower Flammability or	No data	
Explosive Limits		
Vapour Pressure	No data	
Vapour Density	No data	
Relative Density	1.062	
Solubility	Completely miscible in water	
Partition co-efficient, n-	No data	
Octanol/Water		
Auto-ignition Temperature	No data	
Decomposition Temperature	No data	
Viscosity	No data	

Section 10. Stability and Reactivity		
Reactivity	Stable	
Chemical Stability	Stable	
Possibility of Hazardous	Will not occur	
Reactions		
Conditions to Avoid	Naked flames	

Incompatible Materials	Alkali metals, strong a	acids, strong alkalis and	l strong oxidizing agents

Hazardous Decomposition Glycolic acid

Products

Section 11. Toxicological Information			
Component Toxicity	LD50 Oral	LD50 Dermal	LC50 Inhalation
Ethylene Glycol	4700mg/kg(Rat) 9500mg/kg(Mouse)	10876 mg/kg (Rabbit)	
Likely Routes of Exposure			
Skin:	absorbed through the	n cause burning and red skin and can cause healt	
Eyes:	May cause irritation		
Inhalation:	Irritation of the respi vomiting and diarrho headache, cyanosis (quantities of this material ratory tract, digestive trace, sea, faintness, light-heade blue discolouration of sk due to lack of oxygen), luns, coma, and death	ct disturbances, edness, fatigue, in, nail beds, and
Ingestion:	Ingestion of this prod	luct may lead to kidney, pances, vomiting, diarrho	_
Acute Toxicity Estimate	No data		
(ATE)			
STOT (Specific Target	Central nervous syste	em (CNS)	
Organ Toxicity) – Single			
Exposure			
Aspiration Toxicity	Not classified		
STOT (Specific Target Organ Toxicity) – Repeated Exposure	Liver and kidney dar	nage.	
Skin Corrosion / Irritation	Irritant		
Serious Eye Damage / Irritation	Irritant		
Respiratory or Skin Sensitization	Not classified		
Carcinogenicity	Not listed.		
Reproductive Toxicity - Sexual Function and Fertility	Not classified		

-	Development of	Not classified
	Offspring	
-	Effects on or via	Not classified
	Lactation	
Ge	rm Cell Mutagenicity	Not classified
Int	eractive Effects	Not classified
Otl	ner Information	Not applicable

Section 12. Ecological Information		
Ecotoxicity	Ethylene glycol LC50: 51,000 mg/L (Flathead minnow) LC50:	
	27,549 mg/L (Bluegill) LC50: 18,000 – 46,000 mg/L (Rainbow trout)	
Persistence and	Readily degradable.	
Degradability		
Bioacumulative Potential	Not likely	
Biodegradability	Is biodegradable	
Mobility in Soil	Not available	
Special Remarks	BOD: 8 to 82 % @ 5days; 58 to 75% @ 10 days: 81 to 94 % @ 20	
	days COD: 1.29 mg/mg.	
Other Adverse Effects	Not applicable	

Section 13. Disposal Considerations		
Disposal Considerations	Dispose of in accordance with local, provincial and federal regulations	

Section 14. Transport Information	
UN Number	Not applicable
UN Proper Shipping Name	Not applicable
Transport Hazard	Not applicable
Class(es)	
Packaging Group	Not applicable
Environmental Hazards	Not applicable
Bulk Transport	Not applicable
Special Precaution	Not applicable
DOT Erg#	Not applicable

Section 15. Regulatory Information

Canada – DSL Inventory	All components of this product are either on the Domestic Substances	
-	List (DSL), Non-Domestic Substances List (NDSL), or exempt	
TSCA	All components of this product are either on the Toxic Substances	
	Control Act (TSCA) Inventory List or exempt	
Additional Information	None	

Section 16. Other Information		
NFPA Rating	Health-2/ Flammability-0/Reactivity-0/Special Hazard-Not applicable	
HMIS Rating	Health-2/Flammability-0/Reactivity-0/Personal Protection-See Section 8.	
Prepared by:	Chemfax Products Ltd., Technical Department	
Date Prepared:	August 18, 2011	
Date of Latest Revision: 9 December 2020
