

TANKER SERVICE

Chemfax is an Alberta based specialty chemical manufacturer with over 200 unique products. We also, confidentially, custom blend and private label many well known products for customers in a number of different industries. With over 38 years of experience in the specialty chemical industry, Chemfax prides itself on quality, safe and reliable service.

Chemfax provides a number of methods of transporting chemicals, one of which is bulk transport. With volumes of up to 22,000 litres per load and capabilities of direct loading to your site, we continue to be an economical solution to your operation. Chemfax has recently completed a new state of the art blending and loading facility in Calgary which will enable us to better serve your bulk chemical requirements. With a team of long term and dedicated individuals, Chemfax will provide you with hassle free, safe and cost effective transportation of your valued goods anywhere and anytime you require.
